

**Central Texas Association for
Civil, Architectural and Environmental Engineering**
Alumni and Businesses Strengthening the Industry Workforce

* * * *

Unrestricted annual support from Alumni and Companies is critical to the mission of the UT Austin Civil, Architectural and Environmental Engineering Department as we look to strengthen our faculty and student body. In turn, we know this strengthens the workforce as we graduate future engineering leaders.

As employers of a large fraction of our graduates, local companies have a substantial stake in the success of UT CAEE. Our goal is to enhance the partnership between companies and UT CAEE through a new program of annual donations, which, when pooled, will allow CAEE to assemble competitive recruiting packages for faculty, extend competitive scholarships and fellowships to prospective students, and enhance our facilities to better educate our student body.

Gifts will be recognized in the following way:

Gifts of \$1,500

- * Alumni / Companies will be promoted on the CAEE CTA webpage, and company links will be provided to help market the involvement of donating companies/firms
- * Alumni / Companies will be listed as a sponsor of the annual CAEE spring banquet

Gifts of \$3,000

- * Alumni / Companies will be promoted on the CAEE CTA webpage, and company links will be provided to help market the involvement of donating companies/firms.
- * Alumni / Companies will be listed as a sponsor of the annual CAEE spring banquet and will receive 2 tickets to attend and meet students

Thank you for your support of UT CAEE. Our targeted goal is to gather enough support from companies so that we are generating \$100,000 per year for the use of the department. We intend to report fully on the use of the funds on an annual basis. Gifts may be pledged over a 1 year window and paid in full, in 2 installments or quarterly. Questions? Please call Kelsey Evans at 512-471-6151.
