

Flood Forecasting Class Telecommunications

The Adobe Connect address is:

<https://meeting.austin.utexas.edu/floodforecasting/>

The telephone connection is

1. All callers dial in to 512-232-8670
2. There will be a prompt for an access code. It will always be 6543210
3. Then there will be a prompt asking if the caller is the chairperson. All callers (you included) will ignore that prompt and push the pound button.
4. The callers will be placed in queue and then added to the call.

I will try to open these at 12:55 PM Central time so that we can resolve any visualization and sound connection issues before class begins at 1 PM Central Time.
