

## **One Heart in the Right Place**

Lyrics by Arianna Key and Jim Nelson, BYU

There's no telling how much a forecast means  
to the one facing a terrible flood  
and there's no telling how much hydrologic  
Info means in the right place at the right time.,

and no one can tell, though at times they might try  
what it means to have one friend that's been true  
So I guess there's no telling you just how much  
one heart in the right place can do

There's no telling how far our eyes have seen  
with David's vision that inspired this all  
and there's no telling how big a dream can be  
for the one whose learned to never think small

and no one can tell though at times you might try  
what David Maidment's work means to you  
So I guess there's no telling you just how much  
one heart in the right place can do

But David's had a heart as big as his dreams  
that's blessed us all for so many years  
It's been in all the right places at all the right times  
and it's changed everyone of us here.

There's no telling how much that forecast meant  
to the one who faced a terrible flood  
And there's no telling how much hydrologic  
Info means in the right place at the right time

and no one can tell though at times they might try  
what it means to have been touched by David  
so there's no way of telling you just how much  
your heart in the right place has done  
We wish we could tell you David just how much  
your heart in the right place has done
